TO WHOMSOEVER IT MAY CONCERN

It is with great respect and deep admiration that I write this recommendation for **Mr. M. S. Saravanan**, Head of Schools at Shrishti, in strong support of his nomination for the **National Best Teacher Award**. This recognition would be a fitting tribute to someone who has not only dedicated his life to education but has done so with extraordinary vision, compassion, and commitment.

I am working as a **Solution Enabling Engineer at Intel Technologies, Bengaluru**. I hold a **B. Tech in Computer Science and Engineering from Karunya Institute of Technology and Sciences**, and a **Master's degree in Information Security from Vellore Institute of Technology, Vellore**. I have known Mr. M. S. Saravanan for over seven years, during which he has been one of the most influential and transformative figures in both my academic and personal journey. His mentorship has shaped my outlook, instilled confidence, and helped me grow beyond the boundaries of the classroom.

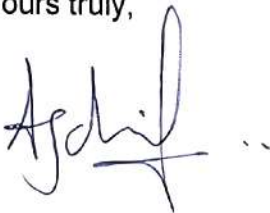

Mr. M. S. Saravanan is not just a teacher in the traditional sense, he is a mentor, motivator, and visionary leader who brings out the best in every student. His ability to connect with students on both intellectual and emotional levels is rare and admirable. During my 11th and 12th grades, I was still trying to understand my interests and direction. I was particularly passionate about photography and videography, and instead of treating it as a distraction, Mr. M. S. Saravanan saw its potential. He not only encouraged me to develop those creative skills but also provided real opportunities to apply them through school events. A particularly proud moment for me was being entrusted to design the cover of his insightful book "*The Real Men*", an opportunity that meant a great deal and gave me the confidence to pursue my passions even more seriously.

Under his leadership, **Shrishti Schools** have undergone a remarkable transformation. Mr. M. S. Saravanan's vision turned Shrishti into one of the most dynamic and progressive institutions in the region. He introduced several innovative initiatives such as **Edu Talks**, **Hakuna Matata Day** (a weekly hands-on learning experience for junior students), **No Vehicle Days**, and a **Plastic-Free Campus** policy, each program designed not only to enhance learning but to instill strong values and social responsibility. He also led key infrastructure and personnel reforms, built a collaborative teaching environment, and encouraged student-led initiatives such as the editing of *The Hindu In School* editions. His strong professional network brought several distinguished guests and speakers to the school, offering students rare exposure to national-level educational programs and thought leaders.

Beyond the classroom, Mr. M. S. Saravanan is a passionate writer and thought leader. His books, educational articles, and frequent contributions to national publications reflect his deep commitment to reshaping education through critical thinking and creativity. He embodies the belief that a teacher's role is not just to deliver content, but to spark transformation, and that is exactly what he does.

I can say without hesitation that Mr. M. S. Saravanan is one of the finest educators I have ever known. His influence has touched the lives of countless students, including mine. His vision, leadership, and unwavering commitment to excellence make him an ideal candidate for the **National Best Teacher Award**, a recognition he truly deserves.

Yours truly,

A handwritten signature in black ink, appearing to read 'Adarsh G Daniel', with a stylized flourish at the end.
